REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The invention of the instant claims though similar to Nyström are novel over the prior art in that they provide a quickly dissolvable dosage form, where the mucoadhesives are present on the surface where the art teaches the adhesive compounds in the core. This structural difference provides the major difference and improvement over other delivery methods. The active agents are delivered more quickly and are less likely to be swallowed. The particles of the invention adhere to the buccal surface and are not swallowed by the patient, due to the mucoadhesives.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
